

To : Margaret Nott
Rainbowair Australia

From : John Jackman
Chief Engineer
Hotel Ibis

The Rainbowair Ozone Generator has been in use in Hotel Ibis for a considerable length of time. We have found it to be invaluable when getting rid of bad smells like cigarette smoke, stale smells etc. The unit itself is of a robust construction and is well able to take all the heavy handling it is subjected to during the course of a working day. This unit has become an essential part of the day to day running of the housekeeping department and has proved to be a strong reliable piece of equipment.

Yours Sincerely

A handwritten signature in black ink, appearing to be "JJ", written over a horizontal line.
